

PRODUCT PROFILE

Specialty Bio-Nutrient with Amino acids & Osmo-regulators for Crop Vigor.

AVAILABLE PACKING

5.0 l, 1.0 l, 0.5 l & 0.25 l

NATURAL AMINO ACID BIO-NUTRIENT

PRODUCT FEATURES

- A specialty formulation with a consortium of Amino acids, Soluble Carbon, & Osmo-Regulators.
- Meets complete Amino acid needs of plants with instant Plant uptake and activity.
- Provides Enzyme and Hormone Precursors & Metabolic Stimulators such as Vitamins and Amino acids.
- Product improves Crop quality such as Color, Size, Flavor and Odor.
- Improves Biological Pesticide efficiency and Nutrient uptake efficiency.
- Stimulates Microbial activity when applied as Soil and Drip application.
- Powers plant for Chlorophyll synthesis and Photosynthesis as a Booster.
- Improves Crop Biomass leading to Overall Yield Improvement at Economic costs.

PRODUCT BENEFITS

- Provides Plant required Amino acids as Precursors and Metabolic stimulators.
- Improves Biomass production, Chlorophyll synthesis and Photosynthesis.
- Powers plants with all required Precursors for Biological Performance.

PRODUCT USE RECOMMENDATIONS

- Apply 250 ml/ 100 L water for foliar uses for Horticulture and Commercial crops.
- Apply 250-500 /100 L water for foliar uses for Plantation crops
- Apply 500-1000 ml/ Acre water in drip applications.

RECOMMENDED CROPS

- Commercial and Plantation crops, Cardamom, Fruits, Vegetables, Rice, Sugarcane, Home gardens, Nurseries & Greenhouses.
- This natural product is ideal and easy to feed plant food for home gardens, nurseries, greenhouses, floriculture for healthy and bountiful plants.
