

PRODUCT PROFILE

Specialty Organic Water Soluble Nutrient

AVAILABLE PACKING

5.0 l, 1.0 l, 0.5 l & 0.25 l

SPECIALTY ORGANIC WATER SOLUBLE NUTRIENT

PRODUCT FEATURES

- A 100% plant based organic water soluble nutrient for soil & plant health enhancement.
- Provides primary & secondary nutrients, trace minerals in easy plant available form for high crop productivity.
- Supports 100% organic production programs and compliments biofertilizer & conventional fertilizer efficiency.
- Provides readily available nutrient spectrum to crops for quick crop deficiency mitigation thus improving productivity.
- Improves soil health by stimulating roots & root zone microbes with symbiotic benefits & sustainability.
- Improves all foliar nutrients & crop protection chemicals when used regularly in tank mixes.
- Regular use helps reduce / replace scarce & expensive farm yard manure in plantation crops.
- Highly recommended with BioQuest products notably BioRoot, BioBlossom, BioActiva, BioEnrich, BioAminos & BioNemaxx.
- Use with BioThrive for complete replacement of costly yet poor quality farm yard manures.

PRODUCT BENEFITS

- 100% Natural & Organic water soluble nutrient.
- Improves roots & root zone symbiosis for better crop health & productivity.
- Rich in nutrients & helps reduce / replace high cost farm yard manures.

PRODUCT USE RECOMMENDATIONS

- Apply 250 - 500 ml / 100 L water for all foliar uses, especially during flowering and bearing stages.
- Apply 250 - 500 ml / 100 L water for soil drench. Use 5 - 10 L solution / plant for plantation crops based on crop stage & nutrient needs.
- Apply 100 - 200 ml / 100 L water with all crop protection chemicals, fertilizers & biostimulants.
- Apply 1 - 5 L / Acre for drip irrigation with Biofertilizers & Conventional fertilizers.
- Apply 2 - 5 L / Acre for drip irrigation for plantation and horticulture crops.

RECOMMENDED CROPS

- Cardamom, Pepper, Coffee, Banana, Tea, Horticultural Crops, Plantation Crops, Greenhouses & Nurseries.
