

PRODUCT PROFILE

Specialty Biorational for Soil pH Management.

SOIL FRIENDLY PH ENHANCER

PRODUCT FEATURES

- A Biorational Soil pH Enhancer that acts quickly and gently on Crops and Soil.
- Highly Water soluble, Soil and Plant friendly Nutrient formulation.
- Enhances Soil pH quickly and Mitigates Rhizosphere stress in shortest time.
- Does not Block Irrigation systems and can be used in Drip and Sprinkler systems.
- Provides high level of soluble primary Nutrients to plants for instant Crop response.
- Chelates with Soil Phosphates for improved plant uptake unlike Lime products which inhibit Phosphorous uptake.
- Provides supplementary benefits in suppressing Soil Pathogens and Nematodes.
- Compatible with Biologicals and Chemicals for Soil Drenching Applications.
- Can also be used as Foliar & Soil primary nutrient supplement for Crop productivity.

PRODUCT BENEFITS

- Enhances Soil pH Quickly and Gently to support Soil conditioning, Nutrition efficiency and favourable environment for beneficial microbes.
- Provides primary Nutrients to plants through Soil and Foliar applications.
- Suppress Pathogen sand Nematodes and create Stress free Root Zone.
- Improves Crop Productivity due to highly water-soluble primary nutrients.
- Chelates with Phosphorous fertilizer and help improve plant uptake.

PRODUCT USE RECOMMENDATIONS

- Apply 100-200 ml/ 100 L water in Plantation crops for soil drenching for pH correction.
- Apply 10-20 ml/ plant for older plants and 5-10 ml/ plant for younger plants for spot applications.
- Apply 100-200 ml/ 100 L water for drip use. Determine water needs/acre based on crop, stage and soil moisture.
- Repeat applications at 2-4-weeks intervals depending on pH conditions of the soil.
- Product can be applied with other fertilizers in Soil drenching.
- Product should be used alone in drip applications. Flush drip lines with water after fertilizer use.
- For foliar Nutrition purposes, apply 2-5 ml/ L during Bloom and post Bloom period.

RECOMMENDED CROPS

- Commercial & Plantation crops, Cardamom, Vegetables, Fruits, Rice and Sugarcane.

AVAILABLE PACKING

5.0L, 1.0L, 0.5L & 0.25L
