Specialty Fermented Organic Fish Soil Supplement

AVAILABLE PACKING

5.0 l, 1.0 l, 0.5 l & 0.25 l

FERMENTED ORGANIC FISH SUPPLEMENT FOR SOIL AND CROP HEALTH

PRODUCT FEATURES

- A 100% fermented organic marine fish supplement for soil & plant health.
- Provides organic nutrients, amino acids & trace minerals from rich marine fish species.
- Improves natural plant resistance against pests, nematodes & pathogens and creates sustainability.
- Supports 100% organic production programs and compliments Biofertilizers & Conventional fertilizer efficiency.
- Regular use helps reduce / replace scarce & expensive farm yard manure in plantation crops.
- Highly recommended with soil drench use with BioActiva, BioRoot & BioNemaxx and other allied BioQuest products.
- Repels pests like scales, mealy bugs, thrips. Hence, tank mixing with crop inputs may be used for better results.
- Use with BioEnergy for complete replacement of costly yet poor quality farm yard manures.

PRODUCT BENEFITS

- 100% Natural & Organic water soluble soil & plant supplement.
- Keeps soil & rhizosphere healthy by providing rare marine minerals.
- Rich in nutrients & helps reduce / replace high cost farm yard manures.

PRODUCT USE RECOMMENDATIONS

- Apply 100 - 200 ml / 100 L water for foliar uses depending on crop stage & nutrient needs. Consider filtration for foliar uses if required.
- Apply 250 - 500 ml / 100 L water for soil drench. Use 5 - 10 L solution / plant for plantation crops depending on stage & nutrient needs.
- Apply 100 - 200 ml / 100 L water when used with foliar nutrients, crop protection chemicals & biostimulants.
- Apply 2 - 5 L / Acre for drip irrigation for plantation and horticulture crops.

RECOMMENDED CROPS

- Cardamom, Pepper, Coffee, Banana, Tea, Horticultural Crops, Plantation Crops, Greenhouses & Nurseries.
