

PRODUCT PROFILE

Specialty Bio-Nutrient with Natural Kinetins for Superior Growth.

AVAILABLE PACKING

5.0 l, 1.0 l, 0.5 l & 0.25 l

NATURAL GROWTH BOOSTER

PRODUCT FEATURES

- A Natural and Biological metabolites-based Crop Booster, Growth and Yield enhancer.
- Formula with plant derived Kinetins, vitamins, natural enzymes and amino acids.
- Contains natural Kinetin(s) Mimics which promotes Cell growth, Cell repairs and Yields.
- Provides SAR compounds & Vegetative Biomass inducing Proteins (possibly involve SAC cycle).
- Improves Chlorophyll synthesis and Photosynthetic activity for improved plant biomass.
- Contains L-Amino acids to function as Building blocks and Enzyme Precursors in Crops.
- Enhances Plant and Soil Health by feeding and establishing Beneficial Soil Microbes for Symbiosis.
- Compatible with all crop Protection and Nutrient products. Check compatibility with Alkaline products.

PRODUCT BENEFITS

- Improves Crop Vigor, Growth, Biomass and Crop yields.
- Improves Chlorophyll production and Photosynthesis in Crops.
- Performs Cellular Repairs and Cell Division for Crop productivity.

PRODUCT USE RECOMMENDATIONS

- Apply 125-250 ml/ 100 L water for Plantation crops and Greenhouse for foliar use.
- Apply 250-500 ml/ 100 L water/ Acre for all Field crops for foliar and drip use.
- Apply 125-250 ml/ 100 L for Plantation and Greenhouse crops for drench application.
- Use in conjunction with regular Crop Nutrition program for good results.
- For Home gardens, Nurseries and Greenhouses, use 5 ml/ L water as foliar and soil drench.

RECOMMENDED CROPS

- Rice, Vegetables, Fruit crops, Sugarcane, All Commercial row crops, Plantation crops including Cardamom etc.
- This natural product is ideal and easy to feed plant food for home gardens, nurseries, greenhouses, floriculture for healthy and bountiful plants.
